

A2

In Serbia there are lots of farms and villages. Serbia's developing in area of organic food. Serbia has 62 households which have a certificate for organic household. They grow different crops, fruits and vegetables. Wheat and corn mostly. This food is very healthy. Organic honey is very rare. In Serbia there are two households which produce organic honey. Healthy cheese is made of organic milk. Cows eat healthy grass, after that they give milk with lots of minerals and vitamins and from that milk people make cheese. Every person in Serbia love fruits. Apples, grapes, pears mostly. Fruits give lots of energy. Come to Serbia and taste our healthy food.
