

B1 A SPECIAL HOLIDAY Emilija Djurdjevic

Three years ago, I visited New York with my family and I enjoyed it so much.

When we first got there I was extremely excited! I remember that as soon as we got to the hotel I started jumping all over the room because I was so happy. After all the unpacking was done, we went to the city centre and we started our adventures.

we travelled from one part of the city to another. From the Statue of Liberty to Central Park and then all the way to Broadway. We visited and explored everything. It was amazing.

I will never forget this trip in my life because it was simply unforgettable.
