

My Trip to Australia

Last year I went to Australia for my holiday, it was one of the best experiences in my entire life. Upon arriving at the Sydney Airport I have already felt a change in the climate, much hotter than in Serbia where I am from. When in Sydney one must pay a visit to the famous Darling Harbor, beautiful site. While we were there we went to the breathtaking Opera House. Next was Royal Botanic garden with its long wines and gigantic trees. After that we spent some time at the Bondi Beach swimming and surfing. The rest of our amazing journey to Australia was spent in the city of Wollongong enjoying the sun and having plenty of fun.
