

You have just found a magic wand

The night was cold and dark. I was in a forest with my friends and we saw a magic wand behind the tree.

We didn't know what to do with it. Only poor people knew what we can do with it, so we decided to go back to the city and find a person who needed help. After a while we saw a homeless woman. "What can we do with this?" we asked. She said we could fulfill just one wish. We knew what to do. We brought houses, water and food to every person and animal in the world.

It was the best feeling ever. And now everyone in the world is happy as well as we are.
