My free time activities

Free time is time for activities which we love to do.

Usually when I have free time I read a book or I watch TV. I like to read interesting books and watch films on TV. When it is nice weather, I ride my bike or roller-skate. In the evening I usually walk with my mother and father. When I have free time I play with my brother. Sometimes I make chocolate biscuits.

Free time is nice because it isn't so long and I use it for activities that make me happy.
