Why I love my Mum

In my heart there are lots of dear people, but the special place takes my mum.

Her name is Mileva. She is 44. Her hair is brown, wavy and short. She is medium height.

I love her because she is nice to me and she is very smart. She helps me in doing my homework. She is very creative too. She loves making gift cards and cakes. She loves riding a bike. When I'm sad she is always there for me. She is the best mum on the world.
