Why I love my dad

I love my dad because he gives lots of love to me. He hugs me every day and we love the same things. My dad knows when I am happy and when I am not. He played volleyball when he was younger and now I play dad's favourite sport.

He always makes me happy. He always buys me beautiful clothes. He works every day and does homework with me. My dad and I always go for a walk together. My dad is the best!!!
