My big adventure

I had lots of adventures, but I choose one, my favourite. It is when I got my pug.

I always wanted a dog, no matter which breed, but my favourite was pug.

My parents wanted to surprise me, because I was a good pupil and they took me to a pug shop, to choose one puppy.

Travelling was hard, it was long and foggy, and little a bit scary, but it was worth it.

I got one cute pug puppy to be my best friend forever, and to go to lots of big adventures with me.

Right now he is next to me, and he is licking my hand...
