

One thing I cannot live without

Vidak Sekulić

I can't live without football. Many people say it is just a game but for me it isn't.

First, it's fun and I love to play it. When I'm sad, playing football makes me happy. I would like to be footballer. I'm already playing in one club.

I take football very seriously. I'm so sad when my favourite club loses. I remember when my favourite club failed to qualify at knockout phase in Europe league. I cried a lot.

Football may not be my profession but it will always be my passion!
