My Ideal School

In my ideal school we would not have teachers. Walls would be fun and colourfull. Every classroom would have TV and computers. Only my friends would go in that school. We would watch films and drink lemonade. Just enjoying and having fun. We would begin school when we are 10. We would learn on the playground, on the benches.

We will be able to be loud and nobody would be angry. Our wishes would be like laws and everbody would hear them. We would all wear black and white T-shirts, because I love Partizan. History and Geography would not be allowed.

I think our life would be better with this school and it is the reason why I think this school is ideal school.

Jana Stojanović, The Big Bird
