The Olympic Games

The Olympic Games are started in Old Greece in 776BC. They are held every four years. There are summer and winter games. The summer games are: marathon, javelin, high jump. And the winter games are: skating and skiing. There are 3 medals: silver, bronze and gold. My family and I watch the games on television. My favourite game is basketball. In this year the Olympic Games are held in London. Many people are coming to watch the Games and they will support their country. I love the Games.
