## The Olympic Games

The Olympic Games have very special and interesting tradition. First Olympic Games were in Ancient Greece for Gods who lived on mountain Olympus in 776BC. Ancient Olympic Games were competition just for men. There were many athletic sports: running, jumping, throwing and other. The Olympic Games were very popular and all wars were in the time of celebrating them. When Ancient Greece lost their freedom, Rome's imperator stopped Olympic Games. They have backed in 1896 in London.

Red ribbons were tied to the winners hands and head as mark of victory. And Greece judge would throw flowers all over the winner.
