

*I love summer*

Summer is one of my most favourite seasons because it is a season of fun and happiness.

In summer, I can do a lot of things that I can't do at school year. I can play with my friends, play the piano, make delicious food, spend my time with dog, go to Greece, read 'Harry Potter', and do other great things. On the seaside I dive, swim, eat good sea food, relax and meet other kids like me.

Also, I can help my mum in the garden. I grow plants like roses, grass, lavender, bush and different plants.

Summer is great because I have more time for myself, my parents, brother, dog and people I love.
