

I love summer

All of us love summer, but everybody has different reason.

I love summer because many things. Because I don't have to think about school, I can eat ice cream, go window shopping, go outside with my friends, swim in the swimming pool, go to the sea and many other things. I think summer is the best season of the year because it's sunny and sun makes you feel happier. We go to many different camps with the school, which are really funny.

All of this is true, but summer isn't real summer without people who make it better.
