

*I love summer*

Of all seasons, I think summer is the most interesting.

In summer, I go swimming and enjoy eating ice cream. I go with my family on a vacation in Greece. I love meeting people from other countries and their customs. When it is raining I enjoy playing games on the computer or playing with my little brother. In July is my brother's birthday. Then we love dancing and playing. We love swimming in the sea and in the swimming pool. My brother in summer loves playing football and playing games.

Summer is my favourite time of the year.
